A biker with a guitar case strapped to the passenger end of his antique hog? A political junkie who won't answer emails during presidential debates? A guy lost in the history section of his local bookstore? Any one of them could be Steve Montgomery, V.P. of Operations at OZ Systems.

A member of the OZ team since 2000, Steve provides managerial oversight for finance, accounting, government relations, external affairs, human services and contract management. Before OZ, he lobbied for the health care and energy industries. His public policy experience includes a stint on the U.S. House Armed Services Committee staff in Washington, D.C. and later as a legislative aide in the Texas Senate where he focused on budgets and finance, inter-governmental relations, public education and healthcare.

Steve has a BA degree in Government from the University of Texas at Austin, an MBA in Business Administration from the University of Texas at Arlington and — most importantly — a lovely wife named Rebecca.
